**Questions/Comments/Suggestions/Requests for Changes**

# 2007 Year End Process

---

**Deadline is August 1, 2007 (Anyone completing by 08/31/2007)**

- Categorical Grads
- 1 and 2 year preliminary positions

## **Update Online Case Log System**

- Set Current Graduating Class (2006-2007)
- Verify grads and print reports (Operative and defined category for categorical grads)
  - + Signed by program director and graduates
  - + Working on implementing electronic signature
- Mail to ACGME

### Year End Menu

1. Set the current Graduating Class
2. [Verify Completing Residents](#)
3. [Generate Completing Residents Report](#)
4. [Generate Completing Residents Defined Categories](#)
5. Mail signed reports to:  
ACGME  
515 N. State St.  
Suite 2000  
Chicago, IL 60610  
ATTN: Operations and Data Analysis

## Verify Residents Completing in Current Graduating Year

To identify residents who will complete training this year:

1. Set the Academic Year for the Current Graduating Class.
2. Verify that the "Residents Completing Program" list is complete. Move residents between the 'Residents Completing' list and the 'Residents Not Completing' list by clicking on the Remove or Add links.
3. Click on the OK button displayed at the bottom of the page to save changes.

### Current Graduation Class

2006 - 2007 

#### Residents completing Program

| Resident Name      |                        |
|--------------------|------------------------|
| Resident, Jason    | <a href="#">Remove</a> |
| Resident, Jr, Test | <a href="#">Remove</a> |

#### Residents not completing Program

| Resident Name             |                     |
|---------------------------|---------------------|
| dd, dd                    | <a href="#">Add</a> |
| Doe, John Q.              | <a href="#">Add</a> |
| Green, Mark               | <a href="#">Add</a> |
| Resident, General Surgery | <a href="#">Add</a> |
| Smith, John               | <a href="#">Add</a> |

# Data Sharing With the Board

---

**2<sup>nd</sup> Year of Agreement to electronically transfer data to the Board**

**Resident Must sign off on Agreement**

**Aggregate File sent 3 times**

- May 1<sup>st</sup>
- June 1<sup>st</sup>
- Fall after data finalized

## Welcome to Resident Operative Case Log for General Surgery

### Last Updated 03/14/2007:

The process for adding new residents to the Case Log System has been updated. Now, all new residents must be entered into ADS first. After adding them into ADS, there are two options for completing their addition to the Case Log System.

One is to wait for the next day. Each night, newly added residents to ADS will be automatically transferred to Case Logs. To complete their addition, simply assign them an ID and password for the Case Log System.

Otherwise, after adding them into ADS, you can log back into Case Logs and go to the 'Add/Update' link under resident on the 'Program Setup' tab. On the top part of the page, newly added residents from ADS will be listed, and any residents previously entered into the Case Log System will be on the bottom part of the page. Simply click on 'Add' and the data will be transferred. Alternatively, click on 'Synchronize Residents with ADS' and all new residents will be entered and their year in program synchronized with ADS.

The CPT descriptions have been updated to reflect the CPT 2007 publication by the AMA. The most notable change is that all the CPTs medium descriptions has been abbreviated to a maximum length of 48 characters. This change affects all 'handheld device' users.

### General Surgery

- Corrections/Enhancements:
  - You have accepted the access terms click Review Agreement to review [Review Agreement](#)
  - Added an agreement page that will allow ACGME to share the residents operative log with the American Board of Surgery for its use.
    - Upon login all the General Surgery Residents will be asked to respond to an agreement with the ACGME.
    - If you disagree with the agreement you will be allowed continue. Please note that the ACGME will not share your case log experience with the American Board of Surgery.
    - Also, if you disagree, the agreement will display every time you log into the Case Log System.
- Known Issues:
  - Netscape users:
    - If all of the fields do not display on the procedure entry screen, try to reload the page. Use the Reload function on the View pull down menu.
    - There are two ways to view reports: The Java viewer and the HTML viewer. These options are listed at the bottom of the report tab. When using the Java Viewer in Netscape you may see unpredictable results. If the Java Viewer is not working right for you, try the HTML viewer. However, the HTML viewer will only print the current page you are viewing. ACGME is researching other options for reporting.

While this application is viewable under all major internet browsers it is best viewed using Internet Explorer 5.0.

### Notice:

- Are you experiencing an excessive amount of "Session Timeout Error pages"?

# Transfer Residents

---

**Residents need to be assigned a new ID and password unique to the new program**

- ID can be assigned right away, don't need to wait for transfer process

**Data will be transferred from the original program to the new**

# Transfer Process

---

## **The New Program is responsible for initiating request**

- On Program Setup Tab – “Resident Transfer Request”
- Input ssn and name
- Verify Resident
- Select attending, institution, and rotation
- Our staff is notified of impending transfer and will actually move the data. E-mail is sent to the program (coordinator)
- If you get message indicating resident can't be located or other error contact us
  - + May have been archived
  - + Multiple transfers cause potential problems
  - + Possible data discrepancy

### Resident Transfer

**Resident to be Transferred**

Thomas Tester

From 44000001 Johns Program

If the correct option is not available in the following selection boxes, use Program SetUp to add.

|             |                             |
|-------------|-----------------------------|
| Attending   | < Please select a value > ▾ |
| Institution | < Please select a value > ▾ |
| Rotations   | < Please select a value > ▾ |

# Off-Cycle Residents

---

**For reporting purposes our academic year is 09/01 to 08/31**

**If a new resident is added after 08/31, in ADS get status of off-cycle and active record in next academic year**

**In Case Logs, should be able to select next academic year and see off-cycle residents for adding to System**

# Residents Who Left Program (Non Categorical Grads)

---

## **Send an e-mail or call the Support Center**

- Identify the residents
- What year they left the program

## **We will archive the data**

- Program can still access summary report like any of the other graduates
- We can create a text file of the raw data and send to you

# Data Entry Tips/Accuracy

---

## **Make sure residents pay attention to data entry screen**

- Shows the procedural category
- Indicates defined category if any

## **Use the search mechanism, especially by area and type**

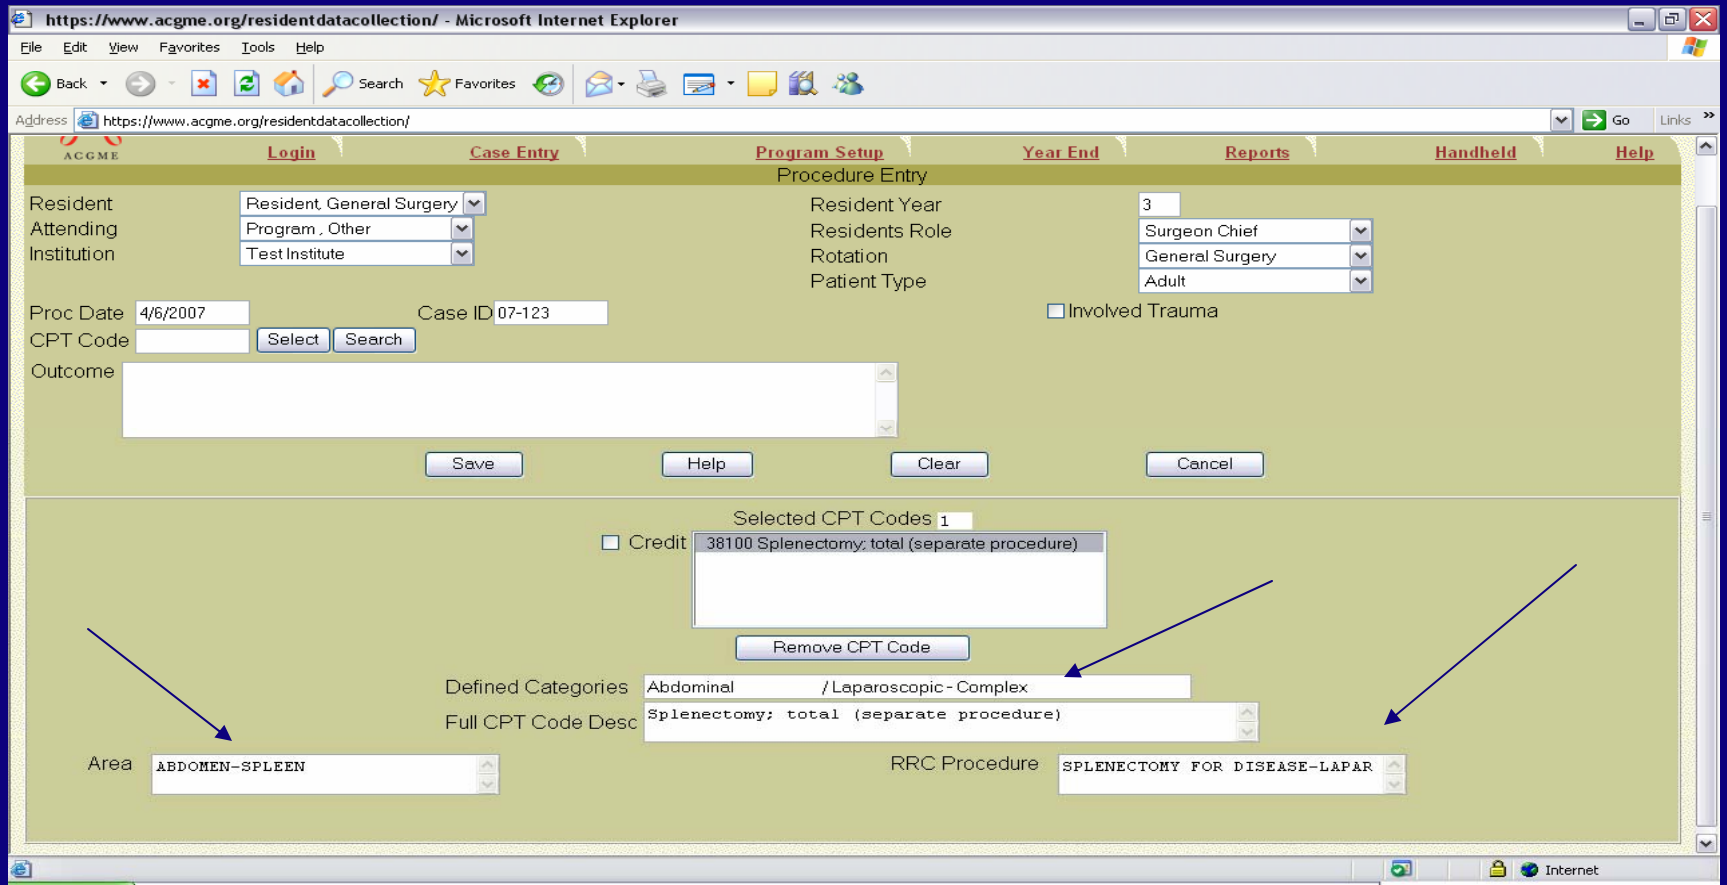

**If possible, have report of “Available CPT Codes by Area and Type**

**“Cheat Sheet” of most common codes used by residents**

## **Use reports to monitor entry by residents**

- Resident Activity
- Full Detail/Resident Operative (specify criteria)

# Data Entry Screen Procedure Counts

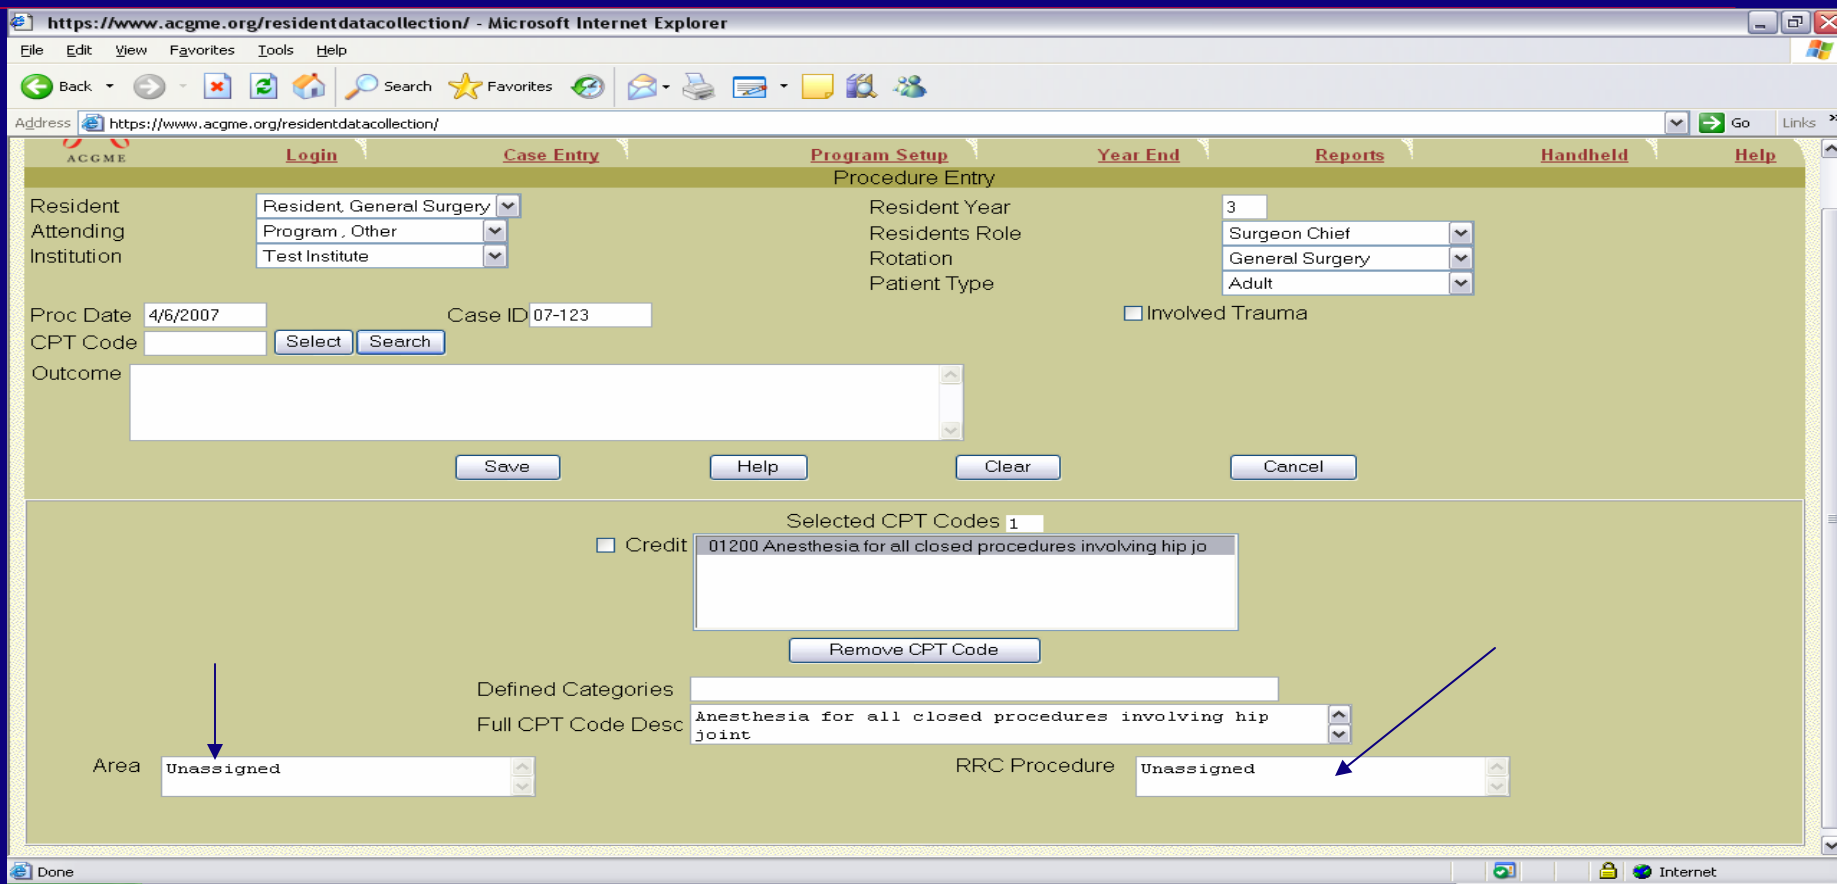

The screenshot shows a Microsoft Internet Explorer browser window displaying the ACGME resident data collection website. The address bar shows the URL: <https://www.acgme.org/residentdatacollection/>. The page has a navigation menu with tabs for Login, Case Entry, Program Setup, Year End, Reports, Handheld, and Help. The 'Case Entry' tab is active, and the 'Procedure Entry' sub-section is selected.

The form contains the following fields and controls:

- Resident:** Resident General Surgery (dropdown)
- Attending:** Program, Other (dropdown)
- Institution:** Test Institute (dropdown)
- Resident Year:** 3 (text input)
- Residents Role:** Surgeon Chief (dropdown)
- Rotation:** General Surgery (dropdown)
- Patient Type:** Adult (dropdown)
- Proc Date:** 4/6/2007 (text input)
- Case ID:** 07-123 (text input)
- Involved Trauma:**  (checkbox)
- CPT Code:** (text input) with Select and Search buttons
- Outcome:** (text area)
- Buttons:** Save, Help, Clear, Cancel
- Selected CPT Codes:** 1 (text input)
- Credit:**  (checkbox)
- Remove CPT Code:** (button)
- Defined Categories:** Abdominal / Laparoscopic-Complex (text input)
- Full CPT Code Desc:** Splenectomy; total (separate procedure) (text input)
- Area:** ABDOMEN-SPLEEN (dropdown)
- RRC Procedure:** SPLENECTOMY FOR DISEASE-LAPAR (dropdown)

Three blue arrows point to the 'Area' dropdown, the 'Full CPT Code Desc' text input, and the 'RRC Procedure' dropdown.

# Data Entry Screen Procedure Does Not Count

The screenshot shows a web browser window displaying the ACGME resident data collection application. The page title is "Procedure Entry" under the "Case Entry" tab. The form includes fields for Resident, Attending, Institution, Resident Year, Residents Role, Rotation, Patient Type, Proc Date, Case ID, CPT Code, and Outcome. A "Selected CPT Codes" section shows "01200 Anesthesia for all closed procedures involving hip jo" with a "Remove CPT Code" button. At the bottom, the "Area" dropdown menu is set to "Unassigned", and the "RRC Procedure" dropdown menu is also set to "Unassigned". Two blue arrows point to these dropdown menus. The browser address bar shows "https://www.acgme.org/residentdatacollection/".

# Pediatric Defined Category

---

**Vast majority of cases did not change**

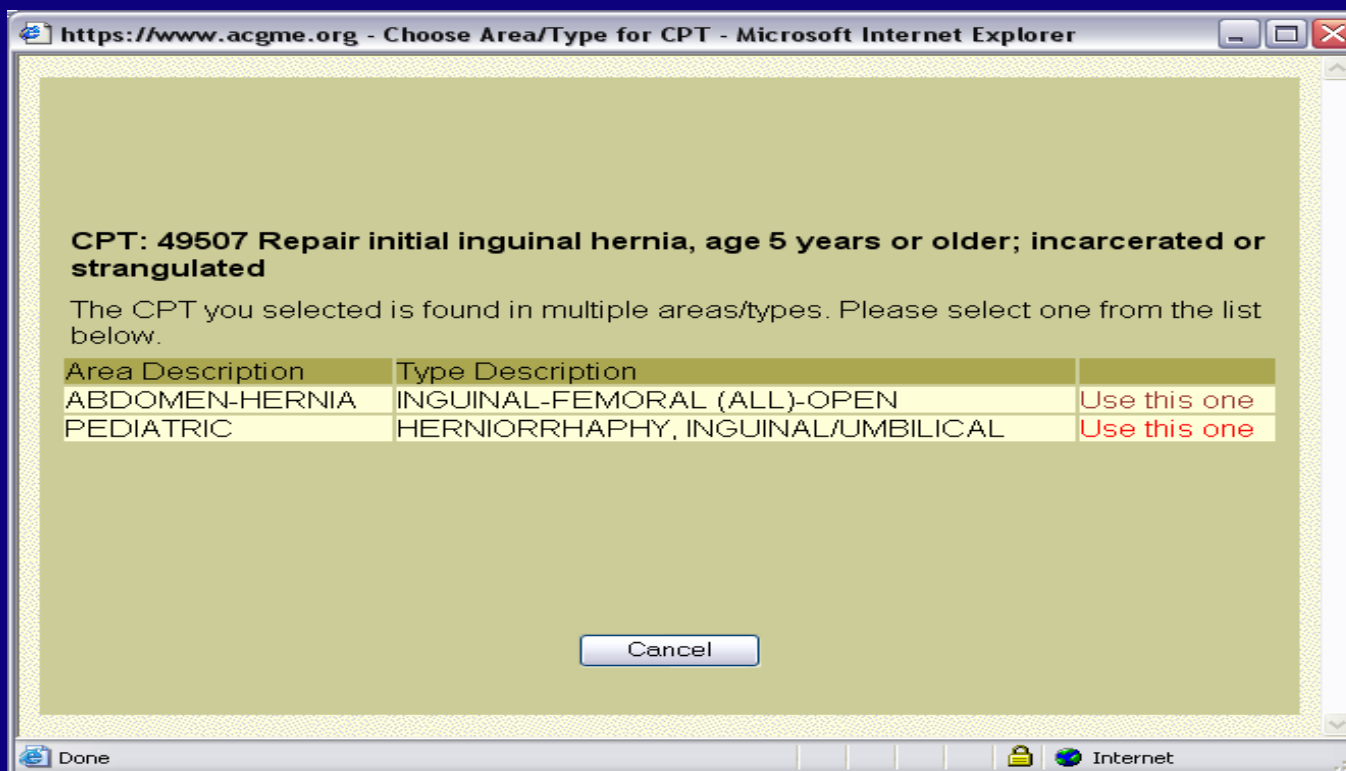

**Most procedures determined by the RRC and its corresponding CPT code**

- If adult and pediatric get screen asking to choose adult/pediatric
- Searching by area & type will automatically assign correctly

**Hernias did not change; reported as subtotal**

**Appendectomy was most significant change, use regular code and patient age dropdown box**

# Adult/Pediatric Code

https://www.acgme.org - Choose Area/Type for CPT - Microsoft Internet Explorer

**CPT: 49507 Repair initial inguinal hernia, age 5 years or older; incarcerated or strangulated**

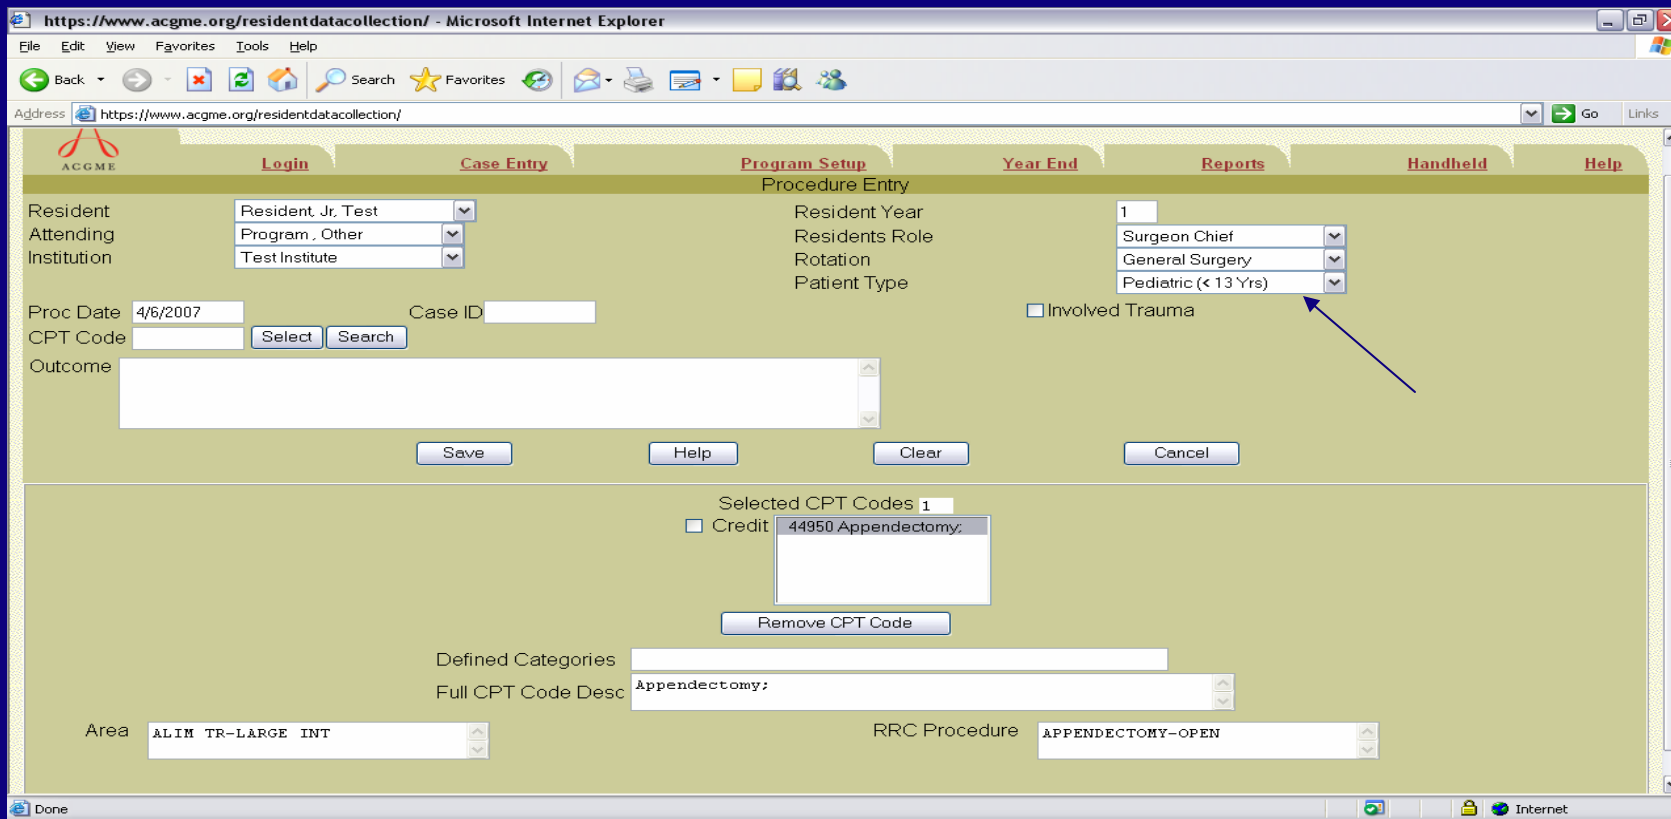

The CPT you selected is found in multiple areas/types. Please select one from the list below.

| Area Description | Type Description                  |              |
|------------------|-----------------------------------|--------------|
| ABDOMEN-HERNIA   | INGUINAL-FEMORAL (ALL)-OPEN       | Use this one |
| PEDIATRIC        | HERNIORRHAPHY, INGUINAL/UMBILICAL | Use this one |

Cancel

Done Internet

# Pediatric Appendectomy

The screenshot shows a web browser window with the URL <https://www.acgme.org/residentdatacollection/>. The page has a navigation menu with tabs for Login, Case Entry, Program Setup, Year End, Reports, Handheld, and Help. The 'Program Setup' tab is active, and the 'Procedure Entry' form is displayed. The form includes fields for Resident (Resident Jr, Test), Attending (Program, Other), Institution (Test Institute), Resident Year (1), Residents Role (Surgeon Chief), Rotation (General Surgery), Patient Type (Pediatric (< 13 Yrs)), Proc Date (4/6/2007), Case ID, CPT Code (with Select and Search buttons), Outcome, Involved Trauma checkbox, Selected CPT Codes (1), Credit checkbox, 44950 Appendectomy, Remove CPT Code button, Defined Categories, Full CPT Code Desc (Appendectomy), Area (ALIM TR-LARGE INT), and RRC Procedure (APPENDECTOMY-OPEN). A blue arrow points to the Patient Type dropdown menu.

Resident: Resident Jr, Test  
Attending: Program, Other  
Institution: Test Institute  
Resident Year: 1  
Residents Role: Surgeon Chief  
Rotation: General Surgery  
Patient Type: Pediatric (< 13 Yrs)  
Proc Date: 4/6/2007  
Case ID:   
CPT Code:  Select Search  
Outcome:   
Involved Trauma:   
Selected CPT Codes: 1  
Credit:  44950 Appendectomy  
Remove CPT Code  
Defined Categories:   
Full CPT Code Desc: Appendectomy  
Area: ALIM TR-LARGE INT  
RRC Procedure: APPENDECTOMY-OPEN

# Trauma/Patient Age

---

**These two fields on data entry screen do not determine if procedures count in defined categories (with exception of ped appendectomy)**

**Only if RRC identified code as counting in these two categories**

**Intention is to monitor the codes entered where these have been checked off and potentially add as counting in trauma or peds**

# Reports for the PIF

---

**Every year, ACGME generates reports based on that years graduates**

**Resident and national level comparative data**

**Reports are be posted in ADS**

- Back to 2002-2003 academic year

**For PIF, attach reports to PIF as documentation of resident experience.**

Windows NT 5.1;  
Your OS is: Win32

For the academic year 2005-2006, DIOs will no longer need to verify their sponsored programs duty hour responses. Please ensure that all information is accurate and complete.

**Program Information Forms with New ADS Part 1 and Part 2 Format**

At this time, the PIFs for several specialties have been re-organized and now follow the Part 1 (from ADS) and Part 2 format. Part 1 of the PIF is electronically populated from data provided annually by programs and sponsoring institutions. Using ADS, programs can retrieve Part 1 of the PIF under the Site Visit Information Section. After Part 1 is updated and complete, proceed with the completion of Part 2, a word processing document, that can be found under the Program Information Form Section on the ACGME website ([www.acgme.org](http://www.acgme.org)). The specialties with the converted PIF can use the ADS system to review Part 1 of the PIF at any time.

The revised PIFs include all core specialties (with the exception of Internal Medicine which is using CAAR). Subspecialties using the revised PIF include: Pediatric Anesthesiology, Critical Care Medicine (Anesthesiology), Pain Medicine (Anesthesiology), Procedural Dermatology, Dermatopathology, Medical Toxicology (Emergency Medicine), Endovascular Surgical Neuroradiology (Neurological Surgery), Pain Medicine (Neurology), Neuromuscular Medicine, Child Neurology, Neurodevelopmental disabilities, Clinical Neurophysiology, Adult Reconstructive Orthopaedics, Foot and Ankle Orthopaedics, Hand Surgery (Orthopaedics), Orthopaedic Surgery of the Spine, Orthopaedic Sports Medicine, Musculoskeletal Oncology, Neurology, Pediatric Otolaryngology, Pathology, Selective Pathology, Blood Banking/Transfusion Medicine, Pediatric Physical Medicine and Rehabilitation, Undersea and Hyperbaric Medicine, Medical Toxicology (Preventive Medicine), Addiction Psychiatry, Child and Adolescent Psychiatry, Forensic Psychiatry, Geriatric Psychiatry, Psychosomatic Medicine, Abdominal Radiology, Endovascular Surgical Neuroradiology (Radiology-Diagnostic), Vascular and Interventional Radiology and Cardiothoracic Radiology.

Some specialties are also including the program faculty data on the electronic PIF-Part 1 (see below). Programs are encouraged to initially log the faculty members who are directly and regularly involved in resident education and provide any additions and deletions on an annual basis. Within the next several months, more specialties will begin to generate the faculty data electronically on Part 1 of the PIF.

**Requests in ADS by Program Director which require DIO/GMEC Approval**

The ACGME Institutional Requirements specify that the Designated Institutional Official (DIO) or a designee review and cosign (hard copy or email) any correspondence or document submitted to the ACGME by program directors that requests changes in the program that would have significant impact, including financial, on the program or institution. In addition, the GMEC must review and approve, prior to submission to the ACGME, applications for accreditation of new program or subspecialty; changes in resident complement; major changes in program structure or length of training; additions and deletions of participating institutions used in a program; appointment of new program director. ACGME is in the process of transitioning to electronic submission, through ADS, these requests to RRCs. In order to facilitate documentation of DIO/GMEC approval, and therefore, compliance with the Institutional Requirements, program directors should submit the requests in ADS and submit a letter from the DIO/program director via

For the 2004-2005 academic year, the Surgery RRC has modified the operative log reports. The procedural categories for the program and resident statistical analyses are slightly reduced from prior years. In addition, the national average for residents and programs is now also displayed on the program level reports, and procedures falling more than one standard deviation from the national mean are flagged.

There is also now a graphical summary of your graduating residents based on the total number of major operations performed. It shows each resident's total, the program average, the national average, and one standard deviation below and above the national average.

Done Internet

# Additional/New Reports

---

## **ACGME is open to adding additional/new reports**

- Must be feasible
- Would be used/benefit a number of programs
- May take some time to implement due to supporting additional specialties

**Let me know specifications**

# Upcoming Changes 2008 Grads

---

## **Laparoscopy – Basic**

- Minimum increased to 60 total cases
- Cholecystectomy
- Appendectomy

## **Laparoscopy – Advanced**

- Minimum becomes 25 total cases

# Upcoming Changes 2009 Grads

---

## Endoscopy

- Minimum increased to 85 total cases
- Upper endoscopy 35
- Colonoscopy 50 procedures

# If You Need Assistance

---

## ACGME Support Center

- (312) 755-7464
- [Oplog@acgme.org](mailto:Oplog@acgme.org)

## ADS Representative
